

**Job Title:** Full-Stack Developer

**Company:** House of EdTech

### Role Overview

As a Full-Stack Developer at House of EdTech, you will play a key role in the development and optimization of our platforms. From designing seamless user experiences to building efficient backend systems, your expertise will help ensure our technology remains cutting-edge, scalable, and impactful.

### Technologies You'll Work With:

- Frontend: Next.js (App Router, must), React.js
- Backend: Bun.sh, Node.js, Elysia.js, Hono.js
- Database & ORM Tools: Postgres, MongoDB, Redis, Prisma, Drizzle
- Cloud & DevOps: Vercel, Railway, AWS, Cloudflare

### Key Responsibilities:

- Develop and maintain scalable, high-performance full-stack applications.
- Work fluidly across frontend and backend systems to deliver exceptional user experiences.
- Collaborate with cross-functional teams to conceptualize, implement, and optimize new features.
- Troubleshoot and solve complex technical issues while enhancing platform performance and reliability.
- Stay up-to-date with emerging technologies and industry best practices.

### Who You Are:

- Experience: 1+ years of hands-on expertise in full-stack development.
- Technical Skills: Proficiency in Node.js, Next.js, and Bun, with a strong understanding of Prisma ORM and database management (PostgreSQL, MongoDB).
- Mindset: A team player with a problem-solving attitude, passion for innovation, and eagerness to learn and adopt emerging technologies.
- Why Join Us?
- Impact: Your work will shape the future of digital education for millions of learners.
- Innovative Environment: Join a remote-first, forward-thinking team that values creativity, collaboration, and innovation.

RR EDITIONS PUBLICATIONS LTD. 2022. © 2022 RR EDITIONS LTD.

- Career Growth: Work on exciting, high-impact projects that influence the digital education landscape.

#### **About Us:**

House of EdTech (Goenka Kachave LLP), founded by IIT Kharagpur alumni Aditya Goenka and Aditya Kachave, is one of India's fastest-growing edtech companies, redefining professional growth with innovative, impactful, and hands-on learning experiences. With 5M+ professionals served, ₹250 Cr+ ARR, and 700+ team members across 10+ offices in India, we empower learners to thrive through advanced education in AI tools, Stock Market, Personal Finance, Data Science, and Business Productivity. Now, we are expanding into AI-powered trading and quantitative research — building cutting edge strategies and technology to revolutionize financial decision-making.

If you're ready to make a meaningful impact in an exciting and intellectually stimulating environment, we'd love to hear from you!

Apply now and become part of our mission to transform education with technology. Let's build the future together!
